Site Quality Manager (m/f/d)

1210 Vienna, Job-ID: d6zg3agw,

At SIEMENS Personaldienstleistungen GmbH (SPDL), a subsidiary of Siemens AG Austria, an exciting work environment backed by over 25 years of experience awaits you. We offer challenging opportunities within the diverse Siemens Group and with our well-known clients across Austria. We believe in equal opportunities, cultural diversity, and shared success.

For an exciting assignment with our customer, [Siemens Energy Austria GmbH](#), we are currently looking for a **Site Quality Manager (m/f/d) for our construction site in Bruck an der Leitha**.

Your responsibilities

- Advise Site Management on all quality management and project-specific quality issues
- Implement and monitor the Quality Management System (QMS) on site
- Coordinate with consortium members and subcontractors on QA/QC requirements
- Oversee weld inspections and non-destructive examinations (NDE)
- Manage deviations and non-conformances (CARs, NCRs)
- Support pressure testing and compile technical site documentation
- Coordinate document control and filing for quality-related documentation

Your perspective

Depending on the specific qualifications and professional experience, a gross monthly salary of at least EUR 3.350 is envisaged (this in any case exceeds the minimum salary under the collective agreement). The final salary agreement will be reached in a personal meeting.

At our client you enjoy and value the freedom of a flexible mix of working from home and in the office. You will also benefit from a flat hierarchy and a transparent company structure. The position is available at the earliest possible entry date. This may best be discussed in a job interview.

Your qualifications

- Completed technical education (e.g., HTL, master craftsman qualification or equivalent) in mechanical, metal, or materials engineering
- Proven experience in quality management roles within industrial or construction projects, with a focus on site operations and QMS implementation
- Certified as an International Welding Engineer/Technician, or a Certified Welding Inspector (CWI 3.2)
- Certified to NDT Level 2 (ISO 9712, ASNT-TC-1A) in VT, PT, MT, and RI
- Excellent English speaking and writing skills
- Strong analytical, communication, and coordination skills, with the ability to work independently and in a team

How do I apply?
