Cyber Security & Real Estate Asset Professional (m/w/d)

1210 Vienna, Job-ID: m1k4rn9e, #NIS #Expert

At SIEMENS Personaldienstleistungen GmbH (SPDL), a subsidiary of Siemens AG Austria, an exciting work environment backed by over 25 years of experience awaits you. We offer challenging opportunities within the diverse Siemens Group and with our well-known clients across Austria. We believe in equal opportunities, cultural diversity, and shared success.

For an exciting assignment with our customer, Siemens Real Estate (SRE), we are currently looking for a full-time **Cyber Security & Real Estate Asset Professional (m/f/d)** with NIS2 knowledge for our location in 1210 Vienna.

Your Responsibilities

- Operational support for Cyber Security topics concerning IT assets within the Siemens Real Estate environment in Austria, including the implementation of NIS2 and company-wide requirements
- Ensuring the quality, transparency, and up-to-dateness of IT asset information and related documentation (IT/OT assets, responsibilities)
- Coordination of IT and OT operators as well as network technicians Close collaboration with Cyber Security Management and interface function to various internal and external partners
- Support in preparing audits, reviews, and management reports, as well as tracking measures within the NIS2 project
- Escalation in cases of unclear responsibilities, missing information, or identified risks

Ihre Perspektive

Depending on your specific qualifications and professional experience, a gross monthly salary of at least EUR 3.900,- is provided (this will in any case exceed the collectively agreed minimum salary). The final salary agreement will be made during a personal interview.

As part of an internationally operating corporation, we offer you interesting career prospects and further training options with diverse opportunities to optimally utilize your potential.

Ihre Vorteile

Your Qualifications

- Experience in Cyber Security Support, Governance, Risk, Compliance, or Asset Management
- Practical understanding of NIS2, ISO 27001, or ISMS fundamentals with an implementation and support-oriented focus
- Structured, reliable, and documentation-oriented way of working
- Excellent communication skills when dealing with Cyber Security units, project teams, and operational stakeholders
- Excellent English skills; good German language skills are a plus
- Experience in the real estate, property, or IT/OT asset-intensive environment is an advantage
- Experience in supporting regulatory or audit-driven programs is an advantage
