## Automation Engineer (m/f/d) Biotechnology

3400 Klosterneuburg, Job-ID: hjhsxr8,

Siemens Personaldienstleistungen (SPDL) is a subsidiary of Siemens AG Austria with over 25 years of experience. We provide exciting job opportunities with the Siemens Group and customers throughout Austria. Equal opportunities for all people, cultural diversity and compliance with legal and contractual regulations characterize SPDL.

We are looking for an experienced **Automation Engineer (m/f/d)** in the Biotechnology field for **one of our clients**.

You love automation with futuristic technology like levitating transport systems?

You have a lot of experience with the programming of PLCs?

You want to be part of an exciting company with start-up character in the biotechnology industry?

Then we're probably having an offer you cannot decline!

### Your responsibilities

- Managing software modules and subsystems
- Establishing development plans and key milestones
- Designing and implementing safety concepts and measures
- Creating software solutions for an advanced automation project in biotechnology
- Organizing and monitoring test runs for newly developed machine components and assemblies
- Assisting with the installation and commissioning of new machines both internally and at customer locations

### Your perspective

Depending on the specific qualifications and professional experience, a gross monthly salary of at least EUR 4.000,- is envisaged (this in any

### Your qualification

- High level of motivation to work independently in a dynamic start-up environment
- Practical mindset with strong analytical and solution-driven thinking
- Expertise in programming PLCs for production machinery (preferably ST in Beckhoff TwinCAT 3)
- Experience in developing and implementing safety concepts
- 3-4 years of hands-on experience in automation or robotics
- Strong proficiency in written and spoken English; good German skills written and spoken

### How do I apply?

We are looking forward to receiving your online application!
